

Lámpatestek

VADVIRÁG
RESIDENCE

Standard

Előtér, Fürdő, WC

A standard lámpa csomag keretében a lakásokban csak az előtér, a fürdő és a WC helyiségekben kerülnek álmennyezetbe beépített lámpatestek. A többi helyiségben (szobák, konyha, nappali) E27 izzófoglalatot biztosítunk, így a lakástulajdonosok a későbbiekben a médium és prémium csomagokból választhatnak különböző lámpatesteket ezekbe a helyiségekbe.
